ERD30-B Motor Instruction -Charging:DC16.8V

06.04.SMS-DC25SC3BYTA-02-V1

1 Technical Specifications

- Protection index: IP 20
- The motor can be compatible with 15 emitters at most
- Received frequency:433.92MHz
- Charging:16.8V/1A
- Built-in battery; Battery capacity:2500mAH
- Code: Rolling code
- Nominal voltage:11.1V
- Charge time:6 hours

2 Charging Connection

Please charge the motor before operation. The motor will not function until it has been charged.

3 Code Learning

Note: After code learning, you can use the remote to control the motor to run up, down and stop.

4 Assigning an additional remote

5 Code Deleting

A. This method deletes all channels from the remote you are holding from the motor

B: This method deletes all channels from all remotes from the motors memory

6 Changing the running direction

Method A.

Method B.

7 Turn on Step by Step Function

The motor will move in small increments unless the button is held down.

Note: If the motor is in step-by-step mode, pressing the UP or DOWN button for 3s will make the motor will run continuously.

8 Turn off Step by Step Function

The motor will operate normally.

Note: If the motor is in step-by-step mode, pressing the UP or DOWN button for 3s will make the motor will run continuously.

9 Top Limit Setting

10 Bottom Limit Setting

ERD30-B Motor Instruction -Charging:DC16.8V

06.04.SMS-DC25SC3BYTA-02-V1

11 Top Limit Deleting

Press UP and DOWN buttons simultaneously.

Press the STOP button 4 times within 10s.

Press the UP button once within 10s, the motor will vibrate.

The top limit is deleted.

12 Bottom Limit Deleting

Press UP and DOWN buttons simultaneously.

Press the STOP button 4 times within 10s.

Press the Down button once within 10s, the motor will vibrate.

The bottom limit is deleted.

13 The Third Limit

Note: 1)The third limit is also named as the intermediate limit, it is available at any position between up and down limit.

A: Set The Third Limit The third limit will be deleted automatically if the up or down limit is deleted.

Move the blind to the desired position and press STOP 4 times.

The motor will vibrate; it means the current position is set as the third limit.

Press the STOP button for 2s, the motor will run to the third limit position from any other current position.

B: Reset The Third Limit. The third limit will be deleted automatically if the up or down limit is deleted.

Move the blind to the new desired position and press STOP 4 times.

The motor will vibrate; it means the current position is set as the third limit.

Press the STOP button for 2s, the motor will run to the new third limit position from any other current position.

14 The Light indicator

(1).Recharging Light Indicator

Red Light

Green Light

1)When the battery is recharging, the red light is on.

2)When the battery is fully charged, the light will turn green.

Note: During motor charging ,if red and green light are both on, it means the charging source is under powered, please change the charging source.

(2)Low Battery Light indicator, on motor.

Red light Flashing

1)When battery voltage is too low, press any button on the remote, motor will vibrate once and the red light on the motor will flash and motor will stop running, this situation last 10 times, please recharge now.

2)If the motor is not charged, the motor won't vibrate and only the red light will flash, the battery needs to be charged immediately.

Combi Shade Warranty

Blind X-Press

We provide warranty services for 5 years after the date of purchase. Combi Shade warranty covers defects in materials, workmanship or failure to operate for as long as the original retail purchaser owns the product. Abuse, misuse, accidents or alterations to the product are not covered. Please acknowledge that all fabric colors tend to lose their original intensity over time, and continuous cords eventually wear out. This is considered normal wear and tear and it is not covered by this warranty. Color lots vary and replaced fabric color may not exactly match a previously ordered product repair is the purchaser's sole remedy under this warranty. This warranty does not cover incidental or consequential damages, freight, installation or service calls.
